

EBD Lebanon, a member of The Association of Lebanese Industrialists, produces various Water and Wastewater treatment products & systems for the local market as well as export.

EBD Lebanon operates under a technical license from **EBD Water**, the water and wastewater treatment division of the international EBD Group of Companies.

CAPABILITIES

EBD Water is responsible for the engineering, design and manufacturing of the firm's water and wastewater treatment products, covering the full spectrum of water and wastewater treatment technologies.

EBD Lebanon offers the full EBD Water range of products & systems out of its Beirut based operation.

ENGINEERING & FIELD SERVICES

Our Application, design, and field engineers draw from the widest spectrum of water and wastewater treatment technologies. From initial problem identification to after sales technical support, each step of the working process is executed using the most advanced computer-aided design and engineering tools.

EXPERTISE & FLEXIBILITY

A fully dedicated management and highly motivated staff, provide **EBD Lebanon** with unquestionable strong base of expertise.

A selective network of diversified manufacturing facilities, workshops and suppliers, provides **EBD Lebanon** with the unique strong base of Flexibility.

Our combined expertise & flexibility stand behind a wide list of satisfied customers.

CUSTOMER SERVICES

EBD Lebanon is committed to highest quality and performance. As part of this commitment, comprehensive programs for pre-and-after sales services are in place.

Field service engineers are available to keep all systems and equipment on regular maintenance schedules, assist with repairs, spare parts ordering and replacement of parts.

Customized service programs are developed to meet specific customers' needs, where standard programs fail to do so.

Furthermore, **EBD Lebanon** offers complete retrofit and refurbishing of existing systems.

Systems can be upgraded, taking advantage of new technologies, and accommodating changing needs.

As part of **EBD Lebanon's** full commitment to after sales services, the company offers a full range of spare parts, chemicals and other consumables, covering the supplied water and wastewater treatment products & systems.
